

# LEAN SIX SIGMA ONLINE PROGRAM

## About the Instructor

Mr **Dennis Behnke** has been working in China as a consultant, trainer, and project manager for more than ten years. He is specialised in planning, restructuring and optimising complex production and logistics processes, predominantly for the German and Chinese automotive industry.

Mr Behnke graduated in industrial engineering technology at Hamburg University of Technology (TUHH) and in business administration at Hamburg University. He is a certified instructor for industrial engineering by the German industry association REFA, a Certified Professional in Supply Management (CPSM) as well as a certified Lean Six Sigma Master Black Belt. He speaks several languages and is giving trainings in German, English, and Chinese.

# What is Lean Six Sigma?

Lean Six Sigma is one of the most well-known frameworks for business process planning and optimisation.

**Six Sigma** comprises a set of quantitative tools to achieve world-class process performance and a virtually zero-defect quality.

By combining **Lean Management** and Six Sigma we can use a data-driven management approach to not only enhance quality, but also decrease inventory levels, shorten lead-times, and increase flexibility of our production.

## Courses

### Six Sigma Yellow Belt

Price\*:

2500 RMB

AHK-Members:

2000 RMB

Requirements:

(none)

### Lean Practitioner

Price\*:

3000 RMB

AHK-Members:

2500 RMB

Requirements:

(none)

### Lean Six Sigma Green Belt

Price\*:

3500 RMB

AHK-Members:

3000 RMB

Requirements:

Six Sigma Yellow  
Belt, Lean  
Practitioner

Price\*:

3500 RMB

AHK-Members:

3000 RMB
